

PUBLIC WORKS PICKUP AND PLOW

After going through the Sate Contract and NJPA to get pricing on a replacement pickup and plow the following prices were received.

Midway Ford Roseville,	2016 Ford	\$31'433.70
Nelson Auto Center Fergus Falls,	2015 GMC	\$33'416.61
NJPA	2015 GMC	\$37'948.58
NJPA	2016 Ford	\$37'115.00

These quotes are all for ¾ ton 4x4 heavy duty pickups with similar accessories and include a Western 9.6 foot V plow. The Ford models cannot be ordered any longer in 2015 models so are bid using 2016 models.

In the 2015 General Fund Budget \$35'000.00 was included for the replacement of our 1998 Dodge ¾ ton 4x4 with plow. It is my recommendation to go with Midway Ford to purchase the 2016 F250. After we receive the new pickup I plan on selling the 1998 Dodge with plow.

Thank you, Dan Kovar.
